# TRANSPORTATION LICENSING AND ANALYSIS BRANCH (TLAB)

TLAB’s Licensing Section analyzes applications from carriers, issues permits and certificates to carriers that meet state requirements, writes proposed decisions to approve or deny carriers’ CPCN applications, manages changes to carrier operations, communicates with carriers, and tracks carrier compliance with permit requirements. TLAB’s Analysis Section functions as the Commission’s subject matter expert on policy matters, providing technical and advisory support to commissioners, administrative law judges, and all levels of agency management on transportation matters.

## Processing Carrier Applications

TLAB’s Transportation Licensing Section processes and manages applications for over 9,200 carriers throughout California. Items processed in January 2026 include applications, vehicle and driver updates, vehicle safety inspection results, and other requests. This work is accomplished through the CPUC Transportation Carrier Portal (TCPortal), an online system that allows carriers to submit applications and other requests electronically and make payments online. The TCPortal tracks certain licensing activities as shown in the following tables and figures.

Figure 1. Total Permits & Certificates

**Total Permits and Certificates.** Figure 1 shows the total number of operating authorities (active and suspended) by month. Each carrier may have more than one operating authority.

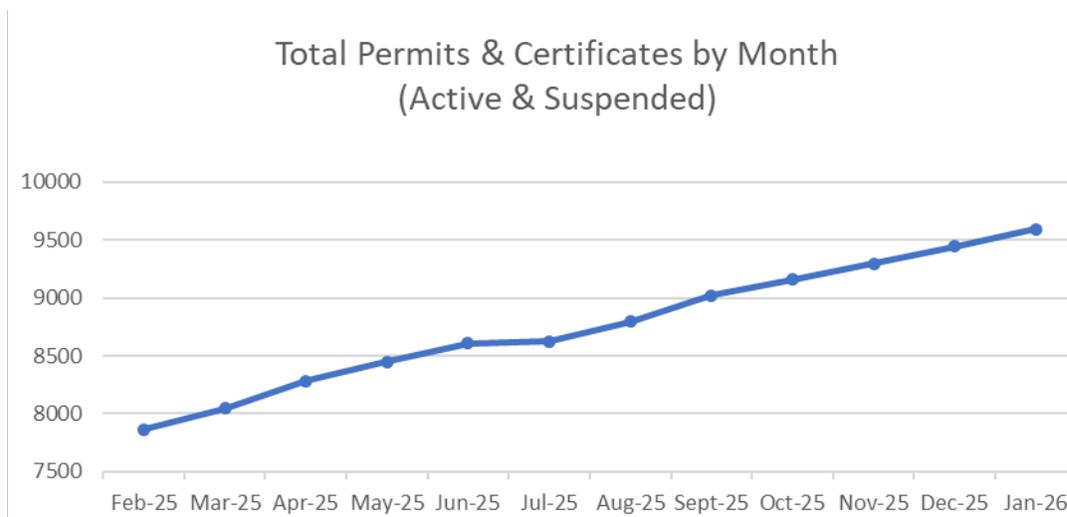

Table 1. Permits and Certificates by Category

**Permits and Certificates by Category.** The Commission grants permits and certificates for five categories of transportation carriers. Table 1 shows total numbers for those categories in the current month.

Carrier Type	Current Total
Transportation Charter Party	9,470
Passenger Stage Corporation	90
Vessel Common Carrier	15
Transportation Network Company	15
Autonomous Vehicle	5

Figure 2. Monthly Completions of Permit Categories

**Monthly Completions of Permit Categories.** In addition to new applications for operating authorities, TLAB processes refile applications, transfer applications, and renewal applications. Figure 2 shows the application numbers of each category completed by month.

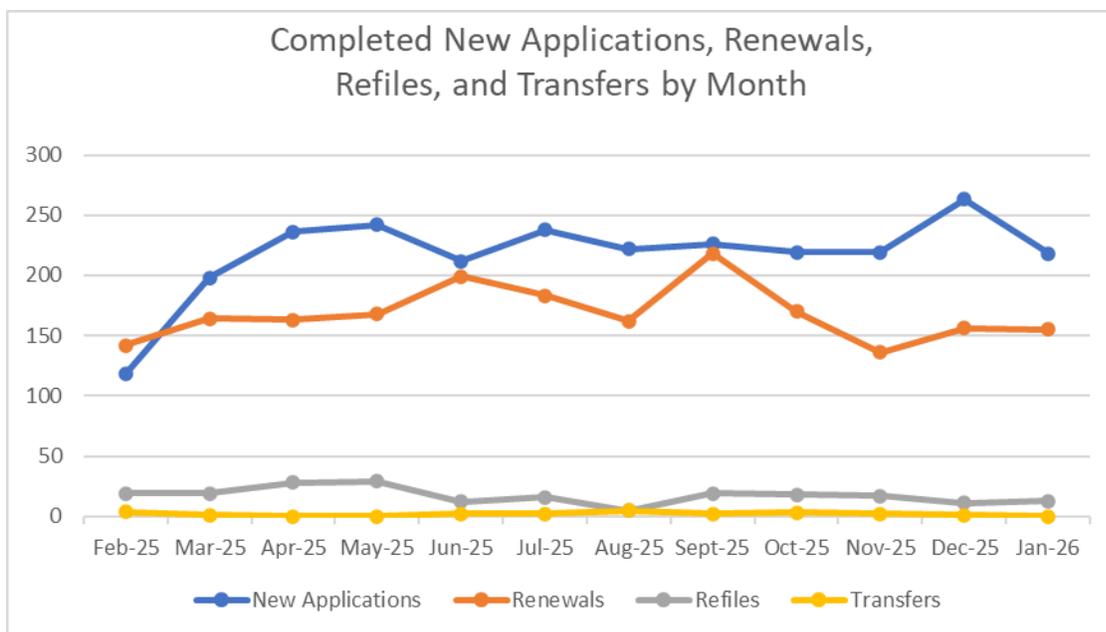

Figure 3. Suspensions and Revocations by Month

**Suspensions and Revocations.** Carriers can be suspended or revoked for various reasons such as failing to maintain active insurance or to file annual or quarterly PUCTRA statements. Carriers may also voluntarily suspend operations. Figure 3 shows both types of suspensions and revocations by month.

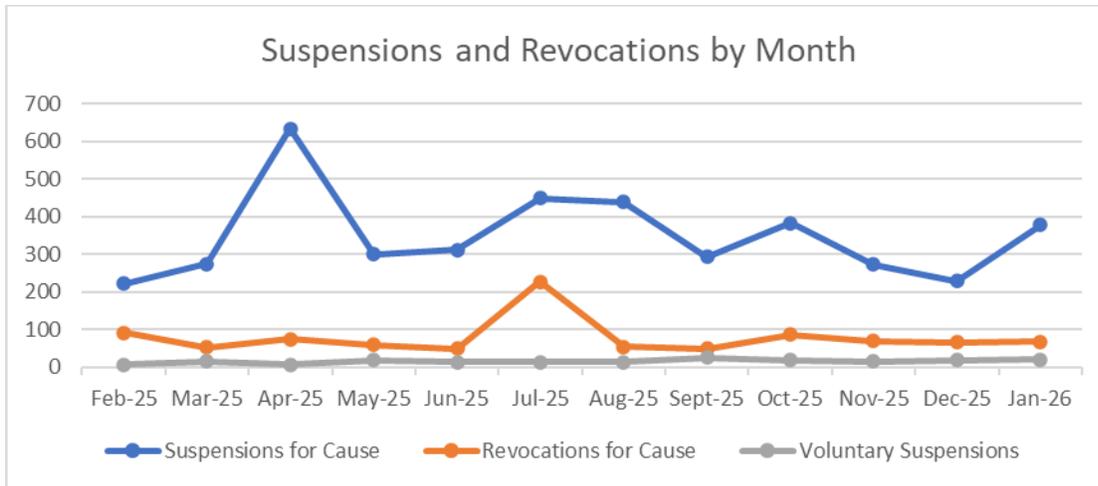

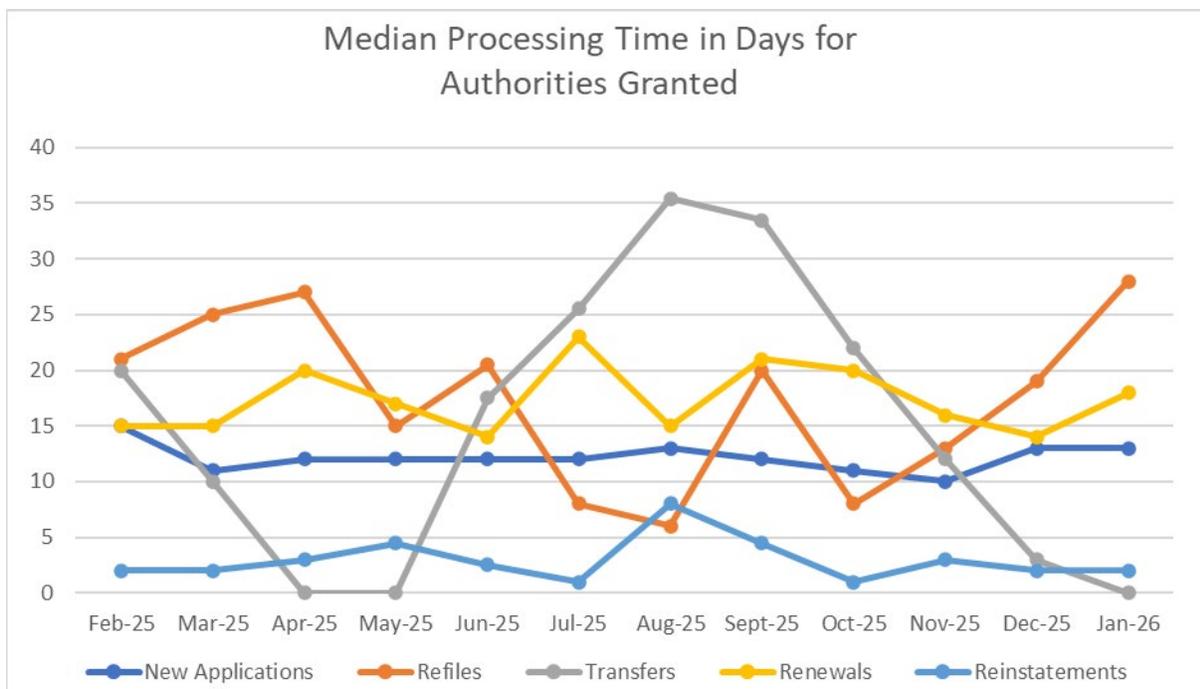

Figure 4. Median Processing Times

**Median Processing Times.** The total time to process an application, from initial receipt to issuance or denial of a permit or certificate, depends on internal processing time and on the time for external entities to provide necessary information. Upon receipt of applications, CPUC staff review them for completeness and issue deficiency notices to carriers for any outstanding items.

Examples of these items include evidence of insurance coverage filed by the carrier’s insurance provider; evidence of compliance with drug and alcohol testing requirements; and inspection by the California Highway Patrol for modified limousines and vehicles with a seating capacity of 11 or more. Figure 4 shows the median processing time for the major categories of permits and certificates processed by TLAB.

## Docket Activity

**Current Policy and Program Proceedings.** The Transportation Analysis Section supports four current proceedings. R.12-12-011 develops regulations relating to transportation network companies and autonomous vehicles; it’s successor proceeding, R.25-08-013 addresses policies, processes and rules regarding autonomous vehicle passenger transportation service. R.19-02-012 implements Senate Bill 1376, incentivizing transportation network companies to provide on-demand service for persons with disabilities, including wheelchair users who need a wheelchair accessible vehicle. R.21-11-014 implements the California Clean Miles Standard and Incentive Program, enacted through Senate Bill 1014, requiring the California Air Resources Board and the Commission to jointly work to lower greenhouse gas emissions from transportation network companies.

  - Docket activity can be found [here](#)
- **R.19-02-012 / TNC Access Rulemaking / Chiv / Baker**
  - Docket activity can be found [here](#)
  - This proceeding was closed January 15, 2026
- **R.21-11-014 / Clean Miles Standard / Goldberg / Reynolds**
  - Docket activity can be found [here](#)
- **R.25-08-013 / Autonomous Vehicle Passenger Transportation Service / Mason / Baker**

**Carrier Application Proceedings.** The Transportation Licensing Section assists the Commission in the regulation of Passenger Stage Corporations and Vessel Common Carriers. Passenger Stage Corporations (PSCs) are carriers that transport passengers between points on an individual fare basis. Examples are fixed-route bus services and “share-the-ride” airport shuttle services. Vessel Common Carriers (VCCs) are carriers that transport persons or property between points in the state. Examples are commute ferry services in the San Francisco Bay and services between California mainland points and Catalina Island. PSCs and VCCs are common carriers and must file requests with the Commission through a formal process. Both carrier types require a “certificate of public convenience and necessity” (CPCN) from the Commission for the authority to operate in California.

- [A.26-10-020](#) / In the matter of the Application of MAIN EXPRESS, LLC, for Passenger Stage Authority under Section 1031, et. seq., of the California Public Utilities Code, to transport passengers and baggage express, on an on-c all, County-to-County fare basis, between the Counties of San Diego, Orange, Los Angeles, San Bernardino, Riverside, Kern, Monterey, Tulare, Fresno, Santa Clara, San Mateo, San Francisco, Alameda and Sacramento, on the other hand; and to establish a Zone of Rate Freedom (ZORF) under Section 454.2, et. Seq., of the PU Code./ **01/26/2026 Application filed**

## Joint Agency Collaboration/Outreach/Training

---

**Joint Agency Collaboration.** Information sharing and collaboration with other transportation agencies is a critical part of TLAB’s work.

- Bi-monthly TLAB Staff and CARB Staff coordination meeting on the Clean Miles Standard
- Bi-monthly Staff Work Group meeting between TLAB and Department of Motor Vehicles Autonomous Vehicles Branch

**Outreach and Education.** TLAB provides outreach and education to potential and current carriers through presentations on application fundamentals at venues such as SFO and LAX, and attendance at functions sponsored by transportation-related organizations such as the Greater California Livery Association and the California Bus Association.

**Training.** TLAB managers and staff regularly attend all trainings required by the Commission, as well as trainings for developing work skills and industry-specific trainings. For example:

- New Employee Training
- Supervisory Development Training
- Cybersecurity Training
- Harassment Prevention and Diversity and Bias Awareness Training
- Leadership Training

# TRANSPORTATION ENFORCEMENT BRANCH (TEB)

The Transportation Enforcement Branch (TEB) regulates for-hire Charter-Party Carriers of Passengers (TCP) (e.g., limousines, airport shuttles, autonomous vehicles while in passenger service, chartered and scheduled bus operators, Transportation Network Companies (TNC) and vessels in California to safeguard the public by ensuring compliance with Commission General Orders (GO), Public Utilities (PU) Codes, and other applicable laws and regulations. TEB conducts our core safety assurance through compliance inspections, investigations, and enforcement activities. TEB also promotes safety by conducting outreach activities for passenger carriers, training for law enforcement on applicable General Order regulations, and reviews all public complaints that it receives.

Consistent with the Commission’s Strategic Directives<sup>1</sup> and Enforcement Policy,<sup>2</sup> TEB developed and utilizes a Safety Management System that is implemented through the following pillars: Transportation Safety Assurance, Transportation Risk Management, and Transportation Safety Promotion.

## Transportation Safety Management System

---

TEB reports the following progress for January 2026 for the following program elements.

**Transportation Safety Assurance** – TEB’s program is designed to check that the Commission’s regulated transportation carriers comply with the Public Utilities Code, Commission decisions, and General Orders to ensure the safety of the public. TEB performs regular Safety Assurance functions through investigations, field operations, and related enforcement activities.

TEB Field Activities:

- San Francisco Municipal Transportation Agency - Joint Field Operation– 01/30/2026

Transportation Safety Complaint Referrals:

- For the month of January 2026, TEB received a total of 37 complaints from CAB and other sources:

**TEB Operational Analysis** – Continually identifying, assessing, and reducing operational risks through mitigation measures faced or posed by the entities the CPUC regulates. Continued monitoring of information, including but not limited to data obtained from field enforcement operations for emerging trends and any associated risks above the risk tolerance level.

**Transportation Safety Promotion** – Supporting efforts to assure that the public and regulated transportation entities can make informed choices and know how to respond to unsafe situations. For TEB, this includes Training and Education, Outreach Efforts with Industry and Law Enforcement, and Commission Engagement.

# UTILITIES ENFORCEMENT BRANCH (UEB)

UEB protects California utility consumers from fraud and abuse by developing enforcement mechanisms and ensuring service providers comply with consumer protection laws and regulations. UEB investigates alleged violations by utilities, including communications (both wireline and wireless), energy (both electric and gas), and water companies. When sufficient evidence of violation is uncovered, UEB brings cases before the Commission to seek appropriate penalties and remedies for consumers.

## Monthly Highlights

---

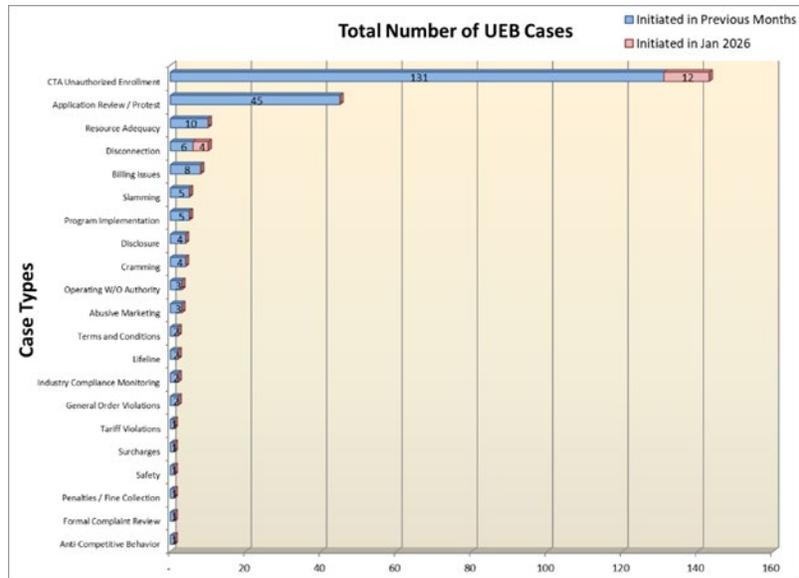

- Havasu Water Company Investigation (I.25-08-007):** On January 14, 2026, CPED filed a motion to request official notice of the United States District Court January 8, 2026, Order of Ejectment, which ordered Havasu to cease all operations and remove all infrastructure, equipment, and installations within the Chemehuevi Indian Reservation on or before June 15, 2026. On January 16, 2026, ALJ LeQuang issued an email ruling granting CPED’s motion to reopen the record and take official notice of the United States District Court Order, then closing the record.
- TelAgility Corp (TEL-744):** On January 21, 2026, TelAgility remitted owed surcharges to the Commission in the amount of \$45,992. In addition, TelAgility had previously paid \$3,000 in penalties to the State General Fund for operating without authority. CPED assisted Communications Division in investigating and directing TelAgility to apply for a Voice-Over Internet Protocol registration and to remit owed surcharges to the Commission when it operated without authority in California.
- San Jose Clean Energy Resource Adequacy Citation Appeal (K.19-03-024):** On January 23, 2026, ALJ Kelly issued draft Resolution ALJ-488, upholding citation E-4195-0052 and affirming the penalty of \$6,791,155 in full for San Jose Clean Energy’s (SJCE) failure to meet its Year Ahead system and flexible Resource Adequacy requirements. The draft resolution found that SJCE citation appeal failed to meet its burden to establish that its deficiency could not have been cured because no system or flexible RA was available.

## Key Activities

---

UEB is working on a total of 247 cases. Investigations center primarily on Core Transport Agent (CTA) Unauthorized Enrollment and Application Review/Protest. UEB’s cases come from a variety of sources, with Inter-Division referrals and UEB’s own scanning activities playing key roles.

Figure 5. UEB Total Number of Cases by Type as of January 31, 2026

## Citations/Fines/Reparation

On January 21, 2026, as a result of UEB’s investigation, TelAgility remitted owed surcharges to the Commission in the amount of \$45,992. In the month of January 2026, UEB issued 2 CTA citations, each in the amount of \$1,000, for failure to provide valid proof of enrollment verification.

For years 2025 and 2026, cumulative fines, reparations and penalties imposed from UEB’s cases are shown below.

Table 8. UEB Fines, Reparations, and Penalties

Date	Citations/Fines/Reparation
Cumulative 2025	\$11,032,571
January 2026	\$47,992
Cumulative 2026	\$47,992

- Resource Adequacy (RA) Citation Program:** UEB issues citations and levies fines to enforce Load Serving Entities’ (LSE) compliance with system, local, and flexible resource adequacy requirements pursuant to Resolution E-4195, as modified by Decisions 10-06-038, 11-06-022, 14-06-050, 19-06-026, 20-06-031, 21-06-029, 22-06-050, 23-04-010, 23-06-029 and 24-06-004.

- Disconnection Citation Program:** UEB issues citations to enforce compliance with the disconnections-related consumer protection rules in D.20-06-003. This citation program is applicable to Southern California Edison Company (SCE), Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E), and Southern California Gas Company (SoCalGas), collectively referred to as California’s large investor-owned utilities (IOUs). There were no citation activities for the month of January 2026.
- Core Transport Agent (CTA):** UEB reviews CTA-related complaints received by the Commission to enforce compliance with the standards for verification of change in provider requirements in D. 18-02-002, and to identify acts constituting grounds for suspension or revocation of registration pursuant to Pub. Util. Code Section 983.5.

In January 2026, UEB reviewed 243 CTA-related complaints that Consumer Affairs Branch (CAB) received during the prior month (December 2025) and identified 78 needing investigations for potential unauthorized enrollment. Staff issued 12 data requests for proof of enrollment authorization. UEB received proof of enrollment authorizations for 75 customers. Therefore, CTA investigations in January are still ongoing.

In January 2026, UEB issued 2 CTA citations each in the amount of \$1,000 to the following: 1) Wave Energy, LLC (UEB-003-0631) and 2) Vista Energy Marketing L.P. (UEB-003-0636) for their failure to provide valid proof of enrollment authorization.

In January 2026, UEB issued seven Cease and Desist letters to six CTAs. Specifically, UEB issued Cease and Desist letters to AAA Natural Gas, Big Tree Energy, LLC, SFE Energy Inc., Spark Energy Gas, LLC, Vista Energy Marketing, L.P., and Wave Energy, LLC due to complaints alleging that their CTA sales representatives misrepresented themselves as Pacific Gas and Electric Company (PG&E) during the solicitation process. UEB also issued a Cease and Desist letter to Wave Energy, LLC for allowing its sales agents to provide electronic devices to customers to complete the enrollment process, which UEB believes is a violation of Public Utilities Code § 983.5(b).

## Compliance with Ordering Paragraphs

---

There were no new Ordering Paragraphs added to UEB’s COPS tracker for the month of December 2025. UEB was responsible for 41 separate Ordering Paragraphs. As of January 2026, 41 of the Ordering Paragraphs (representing 100%) have been complied with, thus none are out of compliance.

Ordering Paragraphs related to UEB’s work are attributable to the imposition of fines, adoption of settlements, ordering of consumer refunds or reparation and other remedies and corrective actions, including reporting requirements, resulting from UEB’s investigations of violations of law and wrongdoing against consumers.

The ordering paragraphs assigned to UEB’s COPS do not include tracking for compliance with payment of fines, penalties, surcharges, or the like, which are assigned to Fiscal Office under the COPs system. However, UEB staff tracks such payments separately in our case management system and informs fiscal of any identified issues.
