ADVICE LETTER 4440-E-A/3301-G-A (U902-E)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

SUBJECT: Supplemental - Information Only Filing Regarding Electric Line Extension Costs

On May 1, 2024, San Diego Gas & Electric Company (SDG&E) submitted advice letter (AL) 4440-E and 3301-G to the California Public Utilities Commission (Commission), an Information-only report on electric line extensions in compliance with Decision (D.) 23-12-037 pursuant to ordering paragraph (OP) 8. The report covered the period of January 1, 2023, through December 31, 2023. SDG&E submits this supplemental AL to break out and replace data in Attachment A, as requested Energy Division staff and is described in further detail below.

DISCUSSION

Phase 3B of the California Public Utilities Commission's (Commission) Order Instituting Rulemaking Regarding Building Decarbonization (R.19-01-011) established a goal to adopt policies aimed at reducing greenhouse gas emissions associated with energy use in buildings while also furthering the State of California's goals of reducing economy wide greenhouse gas emissions to 40 percent below 1990 levels by 2030 and achieving carbon neutrality by 2045 or sooner. D. 23-12-037, specifically, eliminates electric line extension subsidies for all mixed-fuel new construction (building projects that use gas and/or propane in addition to electricity) effective July 1, 2024. Additionally, the new rules require all mixed-fuel new construction projects to use actual cost billing of an electric line extension rather than estimated cost billing effective January 1, 2025. To track the progress of the rule changes and to monitor savings from the elimination of electric line extension subsidies for all mixed-fuel new construction, D. 23-12-037 establishes an annual reporting requirement for California's three largest electric investor-owned utilities (IOU) beginning May 1, 2024.

Specifically, D. 23-12-037 requires the large electric investor-owned utilities (IOUs) to report on electric line expenditures in the prior calendar year broken down separately by customer class for mixed fuel new construction, all-electric new construction, and upgrades to existing facilities including (1) total electric line extension requests from applicant builders, (2) total electric line extension estimated costs to the builder, as determined by the IOU (both refundable and non-refundable amounts), and (3) total subsidies (i.e., allowances, refunds, and discounts) broken down by exempted and non-exempted projects, disaggregated by quarter. The full report as ordered in included in Attachment A of this filling.

This full report (Attachment A) is updated to include the following:

- 1. Minor correction in Notes of category "All Electric New Construction"; "Total Line Extension Received" replaced with "Total Line Extension Requests Received".
- 2. Category "Upgrades to Existing Facilities" is now separated into two categories, "Mixed-Fuel Upgrades" and "All Electric Upgrades".

EFFECTIVE DATE

This filing is subject to Energy Division disposition and should be classified as Tier 1 pursuant to Ordering Paragraph 8 of D.23-12-037, which SDG&E respectfully requests become effective on July 1,2024.

PROTEST

In accordance with GO 96-B Section 6.2, this information-only filing is not subject to protest.

NOTICE

A copy of this filing has been served on the utilities and interested parties shown on the attached list, including interested parties in R.19-01-011, by providing them a copy hereof electronically.

Address changes should be directed to SDG&E Tariffs by email to SDGETariffs@sdge.com.

Agriculture Notes:

- *SDG&E did not receive any exempted projects in 2023
- *"Total Electric Line Extension Requests Received (Applications)" may include both new construction, upgrades and other until system enhancements are complete.
- *All financial figures reported are presented as absolute values. This includes credits for refunds, which may appear as negative numbers in the context of accounting.
- *At the time of reporting, SDG&E is unable to confidently distinguish "new construction" or "mixed-fuel", therefore a manual quality analysis and quality control was completed. Due

12,079,601

to the manual requirements of reporting, data anomalies may exist until system enhancements are complete.

422,941

*In some portions of the SDG&E service territory, gas service may not be provided by SDG&E and is not able to be distinguished within the report.

Category: Upgrades to Existing Facilities

Reporting Period: January 01, 2023 - December 31, 2023

Report Date: May 01, 2024

Notes:

*SDG&E did not receive any exempted projects in 2023

control was completed. Due to the manual requirements of reporting, data anomalies may exist until system enhancements are complete.

^{*&}quot;Total Electric Line Extension Requests Received (Applications)" may include both new construction, upgrades and other until system enhancements are complete.

^{*&}quot;Mixed-Fuel Upgrades" may include projects that were inclusive of an upgrade and new construction, , therefore a manual quality analysis and quality control was completed. Due to the manual requirements of reporting, data anomalies may exist until system enhancements are complete.

^{*}All financial figures reported are presented as absolute values. This includes credits for refunds, which may appear as negative numbers in the context of accounting.

^{*}At the time of reporting, SDG&E is unable to confidently distinguish "new construction" or "mixed-fuel", therefore a manual quality analysis and quality

^{*}In some portions of the SDG&E service territory, gas service may not be provided by SDG&E and is not able to be distinguished within the report.

Category: Upgrades to Existing Facilities

Reporting Period: January 01, 2023 - December 31, 2023

Notes:

- *SDG&E did not receive any exempted projects in 2023
- *"Total Electric Line Extension Requests Received (Applications)" may include both new construction, upgrades and other until system enhancements are complete.
- *"All Electric Upgrades" may include projects that were inclusive of an upgrade and new construction, , therefore a manual quality analysis and quality control was completed. Due to the manual requirements of reporting, data anomalies may exist until system enhancements are complete.
- *All financial figures reported are presented as absolute values. This includes credits for refunds, which may appear as negative numbers in the context of accounting.
- *At the time of reporting, SDG&E is unable to confidently distinguish "new construction" or "mixed-fuel", therefore a manual quality analysis and quality control was completed. Due to the manual requirements of reporting, data anomalies may exist until system enhancements are complete.
- *In some portions of the SDG&E service territory, gas service may not be provided by SDG&E and is not able to be distinguished within the report.
