

February 10, 2023

**Advice No. 138-E-A**  
**(Center for Sustainable Energy®)**

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA  
ENERGY DIVISION

**SUBJECT: Supplemental: Proposed Substantive and Minor Revisions to the Solar On Multifamily Affordable Housing (SOMAH) Program Handbook**

**PURPOSE**

In accordance with California Public Utilities Commission (CPUC or Commission) Decision (D.)17-12-022,<sup>1</sup> the Center for Sustainable Energy® (CSE), on behalf of the Program Administrator (PA) Team for the SOMAH Program, respectfully submits this Supplemental Advice Letter to CSE Advice Letter 138-E, which proposed necessary revisions to the SOMAH Program Handbook.

After further review and consideration of the proposed revisions to the SOMAH Program Handbook, the SOMAH PA would like additional time to examine the issues surrounding the removal of the application deposit requirement for all SOMAH projects and to consider other options that would be successful in achieving the same goal. Accordingly, the SOMAH PA withdraws its proposals to remove the application deposit requirement for all SOMAH projects and to return forfeited funds for application deposits of cancelled and withdrawn projects. All other proposed revisions to the SOMAH Program Handbook, which were not protested, remain the same. This Supplemental Advice Letter replaces the original CSE Advice Letter 138-E in its entirety.

**BACKGROUND**

Assembly Bill (AB) 693 (Stats. 2015, Ch. 582) created the Multifamily Affordable Housing Solar Roofs Program, funded at up to \$100 million annually from the investor-owned utilities' (IOU) share of greenhouse gas (GHG) auction proceeds. Commission Decision (D.)17-12-022 implemented AB 693 and changed the name of the program to the Solar On Multifamily

---

<sup>1</sup> D.17-12-022, *Decision Adopting Implementation Framework for Assembly Bill 693 and Creating the Solar On Multifamily Affordable Housing Program*, December 14, 2017, page 56 and Appendix B, page 1: "Once the SOMAH Program Handbook is adopted, the [Program Administrator (PA)] may propose program adjustments to the Program Handbook via a Tier 2 Advice Letter."

Affordable Housing (SOMAH) Program to distinguish it from other state clean energy and low-income solar programs. D.17-12-022 established the program's budget, incentive structure and eligibility policies, and, among other items, it determined that the SOMAH Program would be administered by a single statewide program administrator (PA) selected through a competitive request for proposal process.

D.17-12-022 additionally directed the SOMAH PA to submit a Tier 3 implementation Advice Letter that included a SOMAH Program Handbook for Commission consideration, subject to approval in a formal resolution. The SOMAH Program Handbook was approved via disposition of GRID Alternatives' Advice Letter 11 and its supplement, GRID Alternatives' Advice Letter 11-B, effective May 9, 2019.

On October 13, 2021, the SOMAH Phase II program evaluation report was released by Verdant Associates and Illume Advising. The Phase II program evaluation report "is focused on estimating program impacts (energy, environmental, and economic), finalizing program metrics and key performance indicators (KPIs), and collecting and analyzing data from SOMAH Program participants (solar contractors and property owners)."<sup>2</sup> The Phase II program evaluation report provided application streamlining recommendations aimed at reducing processing times and increasing program participation.

Pursuant to D.17-12-022, the SOMAH PA may propose program adjustments to the Program Handbook via a Tier 2 Advice Letter. Accordingly, on September 29, 2022, CSE, on behalf of the SOMAH PA Team, proposed necessary substantive and minor revisions to the SOMAH Program Handbook via CSE Advice Letter 138-E (Advice Letter). Among the proposed substantive changes was removal of the application deposit requirement for all new projects and return of application deposits for those projects that have been cancelled or withdrawn.<sup>3</sup>

Cal Advocates protested the Advice Letter on October 19, 2022, claiming that the SOMAH PA's proposal to eliminate the application deposit is unreasonable, speculative and unsupported by the third-party Solar On Multifamily Affordable Housing Phase II Report, and adds administrative cost burden because the application deposit requirement is designed for "administrative efficiencies...by helping screen lower-quality projects and project applicants that are ineligible or unlikely to receive funding."<sup>4</sup>

CSE, on behalf of the SOMAH PA Team, submitted Substitute Sheets for the Advice Letter on November 9, 2022, and December 14, 2022, to clearly state that the only situation that would trigger reinstatement of the application deposit requirement is when a waitlist for SOMAH incentives is established. Subsequently, per the request of Cal Advocates received on

---

<sup>2</sup> *Solar on Multifamily Affordable Housing Phase II Report*, October 13, 2021, page 1.

<sup>3</sup> *CSE Advice Letter 138-E, Proposed Substantive and Minor Revisions to the Solar on Multifamily Affordable Housing (SOMAH) Program Handbook*, September 29, 2022, page 3.

<sup>4</sup> Public Advocates Office of the California Public Utilities Commission, *Protest to Center for Sustainable Energy Advice Letter 138-E (Center for Sustainable Energy's Request for Proposed Substantive and Minor Revisions to the Solar on Multifamily Affordable Housing Program Handbook)*, October 19, 2022, page 1.

December 27, 2022, Energy Division reopened the Protest period for the Advice Letter, with Protests limited to the substance of the supplemental or additional information.

Cal Advocates protested the Substitute Sheets for the Advice Letter on January 13, 2023, once again arguing that the SOMAH PA's proposal to eliminate the application deposit is unreasonable and that the "requirement should be maintained until a comprehensive evaluation of the program is completed, that identifies the deposit requirement as a significant barrier for projects."<sup>5</sup> The SOMAH PA replied to the Protest on January 23, 2023.

After further review, the SOMAH PA would like additional time to examine the issues surrounding the removal of the application deposit requirement for all SOMAH projects and return of forfeited funds for application deposits of cancelled and withdrawn projects and to consider other options that would be successful in achieving the same goal. Accordingly, the SOMAH PA withdraws its proposals to remove the application deposit requirement for all SOMAH projects and to return forfeited funds for application deposits of cancelled and withdrawn projects. All other proposed revisions to the SOMAH Program Handbook remain the same. This Supplemental Advice Letter replaces the original CSE Advice Letter 138-E in its entirety.

Accordingly, CSE, on behalf of the SOMAH PA Team, hereby proposes necessary substantive and minor revisions to the SOMAH Program Handbook.

## **DISCUSSION**

This Advice Letter proposes revisions to the SOMAH Program Handbook, with proposed revisions sorted into two categories: substantive and minor. Substantive revisions include a new SOMAH Program process or requirement. Minor revisions provide additional details and/or revisions to an existing SOMAH Program process or requirement, fix typographical errors, and/or streamline content.

The proposed revisions to the SOMAH Program Handbook are summarized below and also shown in redlined format in Attachment A.

### **Substantive Revisions**

#### **A. Application Streamlining: Reservation Request Milestone**

This Handbook change will:

- Create an application workflow change to break the single milestone into two phases with the intent to reduce the initial administrative burden of submitting the Reservation Request Package.

---

<sup>5</sup> Public Advocates Office of the California Public Utilities Commission, *Protest to Substitute Sheets for Center for Sustainable Energy's Advice Letter 138-E (Proposed Substantive and Minor Revisions to the Solar on Multifamily Affordable Housing Program Handbook)*, January 13, 2023, pages 1-2.

- Streamline the requirements and process flow of application submission and SOMAH PA review at the Reservation Request Milestone.
- Provide a quicker timeline for IOU data request and data sharing.
- Remove the cover sheet document requirement.

Justification:

“Phase II of Third-Party Evaluation Recommended 15A” called for consideration of dividing the Reservation Request Package into more manageable steps and identifying opportunities to streamline program participation requirements. In response to the recommendations, the SOMAH PA identified the need to complete an in-depth review of the milestone before proposing specific changes to the Reservation Request to ensure there is adequate value in re-packaging the same requirements in a different way and to confirm if any requirements can be adjusted or removed. The SOMAH PA’s response outlined that any potential modifications based on this recommendation would be included in the Q3 submittal of the Handbook 6.0 Advice Letter.

The Reservation Request Milestone is the entry point for Track B applications and has many components that result in a large, initial, administrative lift for the applicant. The goal of the proposed application streamlining is twofold: to lessen the burden of initial application submission; and to rearrange timelines within the Reservation Request Milestone to allow for an improved user experience and better integrated project timelines. The proposed phases were established based on stakeholder feedback to better match the project workflows with customer acquisition, project design, and engineering workflows of a solar project. These streamlining changes do not add any additional data entry or new requirements to the SOMAH application, but instead propose a shift or removal of reservation request requirements where possible.

The Reservation Request Milestone will shift from one large package to two smaller defined phases. Phase 1 will allow the basic required PowerClerk fields and document uploads to shrink by nearly half, only requiring the documentation to establish eligibility (cover sheet no longer required) and prepare for the IOU usage data request. Phase 2 will begin with communicating the returned IOU usage data and focusing on proper sizing or re-sizing the PV system based on the shared usage data. From there, the applicant is expected to adjust the system specifications in PowerClerk and submit the remaining required documentation, including the affidavit ensuring 100% tenant benefit, multiple bid waiver and final signoff of the Reservation Request Form. The SOMAH PA will perform a final round of data and documentation review to ensure the system is properly sized and all requirements are met before issuing the reservation approval.

Affected Handbook Section(s):

- 4.2.1 Submit Upfront Technical Assistance Request (Track A projects only)
- 4.2.2 Submit Reservation Request Package and Application Deposit (Application Deposit is applicable to systems > 10kW)
- 4.4 Application Forms and Documentation

- 4.4.1.3 Cover Sheet for Multifamily Low Income Housing Eligibility Documentation [Removed]
- Appendix H, Multifamily Low Income Housing Documentation Cover Sheet [Removed]

## **B. Increased Time for Earmarked Funding with Track A Projects**

This Handbook Change will:

- Increase the amount of time allowed for earmarked funding for Track A projects that have received Upfront Technical Assistance Approval.

Justification:

In reviewing the timelines of participating Track A projects, the SOMAH PA finds an adjustment to the time allowed for earmarked funding for Track A projects is essential for continuing an Upfront Technical Assistance offering that is supportive and realistic for Track A projects. Of the 39 Track A projects submitted, nine have received Upfront Technical Assistance, and four have moved forward with submitting the Reservation Request Package. Based on the timelines of these projects that have completed upfront technical assistance with submission of the Reservation Request Package, the SOMAH PA proposes to increase the time for earmarked funding for Track A projects from three months (90 days) to six months (180 days).

In reviewing the timelines of these projects and the experience of the SOMAH PA in providing the upfront technical assistance, it is evident that the intended three-month earmarked funding timeline is insufficient to provide the property owner with the resources needed to move forward with a SOMAH project and submit a Reservation Request Package. Every project that participates in Track A is different and has a unique set of needs. This often leads to personalized support that includes multiple solar potential and feasibility design iterations as well as financial models and cost/savings analyses. The SOMAH PA's personalized, supportive offering allows property owners an opportunity to understand the design options and financial structures that can work for them and their budget. By customizing solar feasibility and financial information the way the property owners need, they are better informed when communicating with contractors during the bidding process.

Track A is a service intended for property owners with less solar experience. As a result, there is a substantial learning curve and amount of effort dedicated by the property owner to fully understand the program and application process, navigate initial project scoping, and complete the bidding process to obtain a solar contractor. Furthermore, with the three-bid requirement for Track A projects, increasing the time for earmarked funding gives property owners the opportunity to complete a thorough bidding process, including the time needed for contractors to develop and submit comprehensive bids and to solicit additional bids from contractors if needed. Contractor bidding alone has constituted nearly two months of work, on average, for Track A projects to date.

The bidding process not only includes the time needed to receive bids from contractors, but time is needed for the decision-making process – to understand and digest the bid details, to communicate questions and receive answers from the bidding contractors, and for the property owner to have internal discussions and receive necessary approvals to proceed. It is crucial for the property owner to have time during the bidding process to do their due diligence before submitting the Reservation Request Package. Therefore, increasing the overall time for Track A assistance will allow for a reasonable amount of time for both personalized customer support services in addition to the bidding and contractor selection process.

Affected Handbook Section(s):

- 4 Application Process for SOMAH Projects
- 4.2.1 Submit Upfront Technical Assistance Request (Track A projects only)
- 4.3 Waitlist Process

### **C. Adjusted Timeline for the Energy Efficiency Compliance Milestone**

This Handbook change will:

- Increase the amount of time allowed from Reservation Approval to Energy Efficiency Compliance Milestone submission from 60 to 90 days.

Justification:

The goal for the Energy Efficiency Compliance Milestone (EECM) is to assess the project site for energy efficiency opportunities, focusing on reducing site consumption before producing solar energy at the property. In response to stakeholder feedback and observations from application processing, the SOMAH PA proposes to increase the amount of time allowed from Reservation Approval to EECM submission from 60 to 90 days to allow additional time to complete the EECM requirements without impacting the larger 18-month reservation period.

There are two pathways to fulfill the EECM requirement: Pathway 1 – energy efficiency whole-building walk-through audit; and Pathway 2 – recent or active participation in an approved whole-building energy upgrade program, documentation of a recent California Tax Credit Allocation Committee (TCAC) rehabilitation, or documentation that the property was completely constructed under a recent version of Title 24. Pathway 1, the whole-building walk-through audit, posed challenges to participants through the peak of the COVID-19 health crisis, which prompted the SOMAH PA to introduce a postponement option allowing projects to submit the EECM at either the Proof of Project Milestone or the Incentive Claim Milestone. The EECM postponement option was offered for over a year, ending September 13, 2021. EECM postponement was widely utilized by 337 projects during its offering, of which 53 projects have since been completed and paid.

Since ending the EECM postponement option, the SOMAH PA has received feedback from program participants experiencing challenges with completing the EECM requirements in the required 60 days and has observed some incomplete EECM application packages requiring redundant administrative efforts for suspension and resubmittal. While the previous postponement option allowed for significantly more time than the standard 60-day requirement from Reservation Approval, the widespread use of the flexible offering further proves the benefit of considering adjustments to the EECM timeline. Participants have confirmed that a 30-day adjustment of the EECM required timeline, from 60 to 90 days, will provide the necessary relief to meet the program requirements in a consistent manner that better aligns with the timelines of the solar project development while also providing important feedback to the property owner regarding the energy efficiency baseline of their property in a timely manner. While this proposal does not change the application requirements, or impact the 18-month reservation period, the SOMAH PA believes this time adjustment is another valuable step in application streamlining to reduce the burden for program participants in addition to the application streamlining efforts proposed for the Reservation Request Milestone without undermining the intent of this requirement.

Affected Handbook Section(s):

- 1.2 SOMAH Program Handbook, Footnote 4
- 4.2.3 Submit Energy Efficiency Compliance Milestone

#### **D. Option for Remote Site Inspections at Incentive Claim**

This Handbook change will:

- Provide flexibility for the SOMAH PA to complete the final site inspection through a remote, desktop review inspection, instead of exclusively through onsite final inspections.

Justification:

In response to the current project pipeline and in anticipation of future SOMAH projects, the SOMAH PA proposes to include remote, desktop review, compliance inspections as an option in place of onsite field inspections in person. Current Handbook language requires that all SOMAH projects must undergo an onsite field inspection following submission of the Incentive Claim Package, while noting that the frequency and structure of inspections may be modified over the life of the SOMAH Program at the SOMAH PA's discretion. The proposed modification is intended to provide additional flexibility to meet the program requirement of a final onsite inspection while expediting incentive payments for participating property owners and contractors, further reducing the length of financial burden. In particular, the flexibility to provide remote inspections will be essential in supporting service to remotely located SOMAH projects, including projects on tribal lands. The remote inspection option will also provide operational efficiencies by reducing program labor and non-labor expenses for inspections, such as mileage (and related carbon emissions), resulting in savings of administrative funds for

the program. Further, it will decrease the necessity for additional staffing and resources for inspections and prevent additional delays in timelines to project completion and incentive payment.

Conducting inspections virtually is an increasingly common industry standard that is already being offered, with similar proposals by Commission programs with related processes. Additionally, the proposed remote option for the final inspection will be based off the successful integration of what many participants are already familiar with through SOMAH's progress payment offering. Remote desktop review for final inspections will mirror SOMAH's existing virtual walkthrough process with a live video call, along with the applicant providing key photos of the SOMAH system that are normally captured by the SOMAH inspector during the onsite field inspection. Additional supporting documentation may be required from the SOMAH PA (i.e., shade readings, single line diagram) should it be necessary to ensure accurate verification beyond the live video call. The timeline benefits of the remote desktop inspection are sure to provide significant time savings as well. Comparing process timelines for the Progress Payment Pathway with the virtual walkthrough to onsite field inspections at Incentive Claim, the time savings with a remote inspection, similar to the virtual walkthrough, are estimated to have the potential of up to a 30-day savings from that of an onsite inspection.

The SOMAH PA will offer the remote inspection option upon submission of the Incentive Claim Package instead of a notification to schedule the onsite inspection. This offering will be determined by assessing the project location in reference to the location of SOMAH inspectors and will consider the complexity of the system as well. The remote inspection option will initially be a case-by-case offering at the discretion of the SOMAH PA to ensure timely and effective use of the flexible offering. By default, participating projects should expect a final onsite inspection unless otherwise notified by the SOMAH PA. If approved, the SOMAH PA will evaluate the use and benefit of the remote final inspection and may propose an expanded offering with default requirements for projects to qualify for the remote inspection offering. This evaluation period will commence with disposition of this Advice Letter carrying through a six-month period, with subsequent reporting in a Semiannual Progress Report for transparency and stakeholder information.

Affected Handbook Section(s):

- 2.3.5 Inspection Requirements
- 2.3.6 Interconnection, Performance and Permanency Requirements
- 3.3 Incentive Limitations
- 4.6.2 Final Incentive Payment
- 4.8 Onsite Field Inspections
- 4.8.1 Key Project Components Reviewed During Onsite Field Inspections

- 4.8.2 Acceptable Range of Parameters for Key Project Components Reviewed During Inspection
- 4.8.3 Process to Contest Field Inspection Results
- 4.9 PA Recourse for Program Requirement Non-compliance
- 4.9.1 Issuance of Infractions
- 4.9.2 Issuance of Failures
- 4.9.5 Grounds for Immediate Disqualification from the SOMAH Program
- Appendix B, Definitions (Final Inspection)

## **Minor Revisions**

### **A. CCA VNEM Tariff Clarification**

This Handbook change will:

- Clarify that CCA customers for SOMAH projects shall utilize either the relevant participating Investor-Owned Utility's (IOU's) SOMAH VNEM tariff or the relevant participating CCA's own VNEM tariff where the CCA has its own separate SOMAH VNEM tariff.

Affected Handbook Section(s):

- 2.1 Program Participants
- 2.2.1 Eligible Multifamily Low-Income Housing Properties
- 4.4.2.2 Proof of Electric Utility Service for Site

## **TIER DESIGNATION**

Pursuant to General Order (GO) 96-B, Energy Industry Rule 5.2, and D.17-12-022, this Advice Letter is submitted with a Tier 2 designation.

## **PROTESTS**

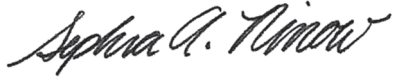

CSE, on behalf of the SOMAH PA, respectfully requests that the Protest period not be reopened for this Supplemental Advice Letter. The SOMAH PA has withdrawn its proposal to remove the application deposit requirement for all SOMAH projects. All other proposed revisions to the SOMAH Program Handbook remain the same as those proposed in the original CSE Advice Letter 138-E, which allowed interested parties sufficient opportunities to protest the revisions to the SOMAH Program Handbook contained in this Supplemental Advice Letter.

## **EFFECTIVE DATE**

CSE requests that this Advice Letter become effective on February 24, 2023, which is fourteen (14) calendar days after the date of submittal.

**NOTICE**

CSE is providing a copy of this Advice Letter to service list R.14-07-002, A.16-07-015 (consolidated).

# ADVICE LETTER SUMMARY

## ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No.: Center for Sustainable Energy® (CSE)

Utility type:

- ELC       GAS       WATER  
 PLC       HEAT

Contact Person: Sephra Ninow

Phone #: (858) 244-1186

E-mail: sephra.ninow@energycenter.org

E-mail Disposition Notice to: sephra.ninow@energycenter.org

EXPLANATION OF UTILITY TYPE

ELC = Electric      GAS = Gas      WATER = Water  
 PLC = Pipeline      HEAT = Heat

(Date Submitted / Received Stamp by CPUC)

February 10, 2023

Advice Letter (AL) #: 138-E-A

Tier Designation: 2

Subject of AL: SUPPLEMENTAL: Proposed Substantive and Minor Revisions to the Solar On Multifamily Affordable Housing (SOMAH) Program Handbook

Keywords (choose from CPUC listing): Rebates; Solar

AL Type:  Monthly  Quarterly  Annual  One-Time  Other:

If AL submitted in compliance with a Commission order, indicate relevant Decision/Resolution #: D.17-12-022

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: N/A

Confidential treatment requested?  Yes  No

If yes, specification of confidential information: N/A

Confidential information will be made available to appropriate parties who execute a nondisclosure agreement. Name and contact information to request nondisclosure agreement/ access to confidential information: N/A

Resolution required?  Yes  No

Requested effective date: 2/24/23

No. of tariff sheets: 0

Estimated system annual revenue effect (%): 0

Estimated system average rate effect (%): 0

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed<sup>1</sup>: SUPPLEMENTAL: Proposed Substantive and Minor Revisions to the Solar On Multifamily Affordable Housing (SOMAH) Program Handbook

Pending advice letters that revise the same tariff sheets: CSE AL 138-E

<sup>1</sup>Discuss in AL if more space is needed.

**Protests and all other correspondence regarding this AL are due no later than 20 days after the date of this submittal, unless otherwise authorized by the Commission, and shall be sent to:**
