#### **4. Progress in Meeting or Exceeding Required Targets and Explanation of Circumstances (Rule 9.1.4)**

In 2024, as reflected in Attachments 7 (which is modeled on the Commission’s template for Section 9.1.4), our procurement exceeded certain of the Commission’s targets<sup>2</sup> established in GO 156. T-Mobile acknowledges that procurement from certain categories of eligible providers continues to be a challenge.

We continue to note that the level of spend would be more accurately reflected for reporting purposes if the Clearinghouse’s certification criteria allowed for Eligible Suppliers that are not California residents but provide services in California (consistent with the certification of other diverse businesses), rather than only certifying suppliers per the narrower requirements of the Department of General Services.

Moreover, T-Mobile continues to believe that the inclusion of handset and SIM card spend significantly distorts procurement rates. In particular, and as noted in previous Reports, T-Mobile is not aware of any handset or SIM manufacturers that qualify as Eligible Suppliers, yet the General Order precludes any categorical exclusions. See GO 156, Section 8.7. T-Mobile remains hopeful that the Commission will reconsider the possible exclusion of handset and SIM card spend from net procurement. In the meantime, T-Mobile notes that its total diverse spend for 2024 excluding handset and SIM card procurement is 48.09%; an accomplishment which is well in excess of the current Commission targets. See attachment 11.

#### **5. Summary of Prime Contractor Utilization of Eligible Subcontractors (Rule 9.1.5)**

Prime contractor utilization of eligible subcontractors is reflected in Attachment 10.

#### **6. List of Eligible Supplier Complaints (Rule 9.1.6)**

T-Mobile is not aware of any complaints registered in 2024 from eligible suppliers.

#### **7. Description of Efforts Made to Recruit Eligible Suppliers in Various Categories identified by the GO as having Low Procurement (Rule 9.1.7)**

The Procurement team met regularly with sourcing managers to discuss opportunities to address the Commission targets established by GO 156 across all categories including those identified by this subsection (i.e., “legal and financial services, fuel procurement, and areas that

---

<sup>2</sup> General Order 156 states that target “indicates progress in a preferred direction” which is “neither a requirement nor a quota.” See GO 156 § 1.3.16.

are considered technical”). *See also* Section II.1, above.

### **8. Document/Data Retention (Rule 9.1.8)**

T-Mobile maintains all documentation and data required to prepare this Annual Report consistent with Company document retention policies.

### **9. Summary of Eligible Supplier Procurement for Renewable and Nonrenewable Energy Procurement (Rule 9.1.9)**

T-Mobile does not currently track renewable and non-renewable energy procurement, wireless, broadband, smart grid or rail projects by Diverse Supplier.

### **10. Commission Authority to Audit (Rule 9.1.10)**

T-Mobile is not currently subject to any GO 156 audits.

### **11. Eligible Suppliers and Fuel Procurements (Rule 9.11)**

T-Mobile procures fuel for fleet vehicles used for cell site construction and maintenance. Fuel purchases are included in Attachment 1.

### **12. WorkForce Diversity and Board Diversity Reporting (Rule 14)**

As required by GO 156, T-Mobile notes that it submits annual EEO 1 Report to the U.S. Equal Employment Opportunity Commission.

## **II. 2025 Annual Plan**

T-Mobile has prepared the following 2025 Annual Plan (“Plan”) in accordance with Section 10 of GO 156, which requires “utilities and other covered entities” to have a “plan for encouraging procurement in all categories of eligible subscribers.”

### **1. Summary of Eligible Supplier Short, Mid and Long-Term Commission Targets (Rule 10.1.1)**

T-Mobile will include the Commission’s 23% diversity procurement target, i.e., 15% for MBEs, 5% for WBEs, 1.5% for DVBEs, and 1.5% for LGBTBEs in GO 156 in its annual plan.

### **2. Description of Program Activities Planned for Next Calendar Year (Rule 10.1.2)**

T-Mobile expects that its program activities in the next calendar year will align

to those activities identified in Section II.1. The planning process is ongoing.

### **3. Plans for Recruiting Eligible Suppliers Where Utilization Has Been Low per GO 156 (Rule 10.1.3)**

T-Mobile is committed to recruiting eligible suppliers in California to ensure compliance with GO 156 through the processes explained in this Annual Report (*see* above). In further response to this subsection of the GO, T-Mobile notes that it has no plans for recruiting Eligible Suppliers in Excluded Categories as it understands there are no such categories per the Commission's directives. *See also* Section II,1, above.

### **4. Plans for Seeking or Cultivating Eligible Suppliers where No Such Suppliers are Currently Available (Rule 10.1.4)**

T-Mobile is unclear how it is possible to seek suppliers where none exist but is open to dialogue with the Commission on this issue. T-Mobile further notes that the concept of cultivating eligible suppliers where none exist seems like a broader public policy issue, not a matter that seems appropriate for an individual wireless provider and thus has no further comment on this topic. *See also* Section II,1, above (highlighting support for various chambers of commerce and education opportunities).

### **5. Plans to Encourage Prime Contractor to Engage Eligible Supplier Subcontractors (Rule 10.1.5)**

T-Mobile intends to maintain its current outreach and communications with Prime Contractors with respect to the use of Eligible Subcontractors.

### **6. Plans for Complying with Program Guidelines (Rule 10.1.6)**

T-Mobile intends to continue to strive to comply with all Program Guidelines as set forth by the Commission to the extent allowable by law.

<sup>1</sup>The total procurement for minority women, i.e., \$47,009,744 is included as part of Total Minority Business Enterprises (Line 12). Consistent with Commission direction, total procurement for minority women is not included in Women Business Enterprises (Line 14) although T-Mobile believes that the failure to include that procurement in WBE as well as MBE provides the Commission with an incomplete view of procurement.

<sup>2</sup>Diverse Business Enterprises supplier spend is based on total spend with all vendors certificated by the Supplier Clearinghouse and Small Business Administration pursuant to Section 8(a) of Small Business Act as amended (15 U.S.C. 637 (a)), or the Secretary of Commerce pursuant to Section 5 of Executive Order 11625.
