Supplier Diversity Program Expense											

9.1.4 A Description of the Progress in Meeting or Exceeding Set Goals

In 2024, Frontier spent 23.91% of its procurement dollars with women, minority, and disabled veteran and LGBTQ owned business enterprises. We exceeded the GO 156 diversity spend goals for women and minority owned business enterprises and acknowledge there is much more work to do in the African American, Veteran, Native supplier communities. Although our supplier based was impacted by rising cost, supplier acquisitions by Venture Capital organizations as well as inflation we maintained key supplier initiatives such as the Council for Supplier Diversity capacity building program.

Frontier monitored progress and took additional steps to meet its supplier diversity goals through the procurement opportunities associated with construction, outside plant and materials management. Frontier's supplier diversity team led a strategic cross-functional effort to identify key focus areas. The team targeted large and small Request for Proposals ("RFP") across the various products/services that had California spend impact. Some of these products and services included fiber optic cable, inside wire, network construction, and fiber to the premises ("FTTP"). As supplier transition to a new consumer product impacted 2nd tier spend and we seek to locate additional suppliers to fulfill the void. The supplier diversity team worked directly with cross-functional teams to ensure that diverse suppliers were considered for every opportunity in 2024.

9.1.5 Description of Prime and Subcontractor Contractor Utilization

Frontier's supply chain/strategic sourcing department continued to focus on second tier spend that provided a direct means to increase contracting opportunities for diverse suppliers through prime supplier engagement.

Frontier's supply chain/strategic sourcing continues to review and renegotiated grandfathered agreements to ensure diversity clauses are included in applicable supplier agreements. We also requested that new suppliers certify WMDVLGBTBE status during initial registration via our online portal. Frontier's supply chain/strategic sourcing department also worked with prime suppliers to ensure utilization of diverse suppliers and to ensure they meet their utilization requirements. In addition, Frontier encouraged prime suppliers to explore areas of opportunity and expansion of diverse suppliers.

10.1.2 Description of Diverse Planned Program Activities for the Next Calendar Year

Frontier plans to continue to strengthen its supplier diversity results. Frontier's supplier diversity team will lead internal and external activities to further develop our program and increase opportunities for diverse suppliers. A summary of these activities is described below:

INTERNAL PROGRAM ACTIVITIES

- Develop and implement strategic plans to increase commitments to existing diverse suppliers and to provide opportunities for suppliers in low utilization areas based on quarterly review forecasting.
- Maintain supplier diversity's participation on cross-functional teams for RFPs and contracts to drive inclusion of diverse suppliers as subcontractors/2nd tier vendors in Frontier procurement opportunities.
- Partner and collaborate with internal business leaders to develop and implement strategies to increase diverse spend.
- Partner with sourcing and strategic prime suppliers to ensure multi-tier diversity inclusion.
- Communicate Frontier's short and long-term supplier diversity related strategic directions to key internal stakeholders.
- Regularly monitor, review, and analyze reports to track progress to ensure diversity initiatives are being executed.
- Collaborate with National and local CBOs to build greater inroads to the Minority Women owned business community with focus on construction and engineering services.
- Continue to collaborate with minority and non-minority advocacy organizations and prime contractors to support doing business with and encourage economic development of diverse suppliers.
- Continue to encourage Frontier's prime suppliers to expand their base of diverse suppliers and subcontractors.
- Continue to work with local community-based organizations to identify diverse suppliers as well as the Supplier Clearinghouse database.

EXTERNAL PROGRAM ACTIVITIES

Frontier plans to continue to develop its supplier diversity program, with an emphasis on outreach to the supplier community, web-based tools to allow effective supplier access, and the development of best practices. Frontier will also closely monitor opportunities to increase spending results, to promote supplier diversity and to meet its objectives, including:

- Participate in local, regional, and national supplier diversity events such as: conferences, forums, symposiums, trade fairs and workshops to build awareness of Frontier's procurement requirements by participating in business matchmaking and one-on-one supplier meetings.
- Work closely with prime suppliers to ensure they meet their 2nd tier utilization requirements and review and expand areas of opportunity for diverse spend.

10.1.3 Plans for Recruiting Diverse Suppliers in Low

Utilization Areas Frontier plans to continue to:

- Develop and implement strategic plans to increase commitments to existing diverse suppliers and to provide opportunities for suppliers in low utilization areas.
- Work with community organizations to drive diverse participation in Frontier sourcing opportunities.
- Benchmark with other utilities to identify diverse suppliers in low utilization areas.
- Increase supplier diversity's participation on cross functional teams for RFPs for services that historically have lower levels of diverse spend including alternate sales channels, network electronics and professional services to drive inclusion of diverse suppliers for procurement opportunities.

10.1.4 Plans for Recruiting Diverse Suppliers Where Unavailable

The CPUC issued Decision 05-11-024 on November 13, 2005, in which it eliminated the use of exclusions in reporting diversity procurement results. Frontier has not used exclusions in providing this report.

10.1.5 Plans for Encouraging Prime Contractors to Subcontract Diverse Suppliers

Frontier plans to continue to work closely with prime suppliers to encourage them to identify and utilize diverse suppliers for subcontracting opportunities and review and expand areas of opportunity for diverse spend. In addition, the company's procurement department will make efforts to ensure that a contract clause requesting suppliers to include diverse sub-contractors, as appropriate, and report on resulting diverse activity is part of future agreements.

10.1.6 Plans for Complying with Diverse Program Guidelines

Frontier plans to continue its efforts to identify and include as many diverse suppliers as possible in its procurement activities and to follow the program guidelines established by the CPUC. Frontier's procurement department management will continue to actively communicate the need to meet Frontier's goals. In addition, we continued our supplier diversity status updates within the sourcing organization. This is a time for employees to share opportunities, recent successes and for our director of supplier diversity to share updates on the program.
