**PUBLIC UTILITIES COMMISSION REPORT PURSUANT TO  
PUBLIC UTILITIES CODE SECTION 321.6****Introduction**

Pub. Util. Code Section 321.6 requires that the California Public Utilities Commission report on the number of formal proceedings where resolution exceeded the time periods prescribed in scoping memos and the number of days that Commissioners presided in hearings. It further requires that the Commission submit the report to the Governor and Legislature no later than February 1 of each year. As described in this report for calendar year 2012, all of the 283 proceedings resolved at the Commission during 2012 were timely. More detailed information is contained in the attached Appendices A-I.

Pub. Util. Code Sections 1701.1 et al. apply to cases filed after 1998 that were subject to hearing at the Commission. These statutes require that matters be resolved within certain time periods, depending on the categorization of a proceeding. Generally, adjudicatory matters must be resolved within 12 months and ratesetting and quasi-legislative matters are to be resolved within 18 months of the issuance of the scoping memo ruling. A proceeding has been resolved when the main issues have been decided such that the proceeding could usually be closed. At times, proceedings that have had all substantive issues decided may remain open or are "re-opened" because of other tangential issues, such as petitions for modifications, various motions, or requests for intervenor compensation.

In addition to data related to proceedings that were subject to hearings, this report contains important case management information on other proceedings.

**Description of Attached Appendices A-I****Appendix A – Formal Proceedings not Subject to Hearings, Active During this Reporting Period**

Appendix A lists the 299 cases active during the time period that were not subject to the hearings. Many of these proceedings are ratesetting or adjudicatory matters that were conducted without formal evidentiary hearings. Also, this appendix lists 35 quasi-legislative matters that were processed through the exchange of written documents and formal evidentiary hearings were not required.

Of the 299 cases, 202 were resolved timely. The remaining 97 proceedings are currently active and on schedule.

### **Appendix B – Complaints Under the Expedited Complaint Procedure, Active During the Reporting Period**

Appendix B lists 55 Expedited Complaint Proceedings (ECP) that are small complaint cases handled under special procedures analogous to “small claims” court. We are reporting these matters separately because the Commission has adopted more aggressive timelines for these cases than the legislative timelines. The Commission has established an informal 132-day target for this type of proceeding to be resolved.

During the reporting period, 37 of these 55 cases were resolved. All 37 resolved matters met the 12 months legislative mandate. Eighteen proceedings remain active.

### **Appendix C – Formal Proceedings Subject to Hearings, Active During the Reporting Period – Proceedings Resolved on Schedule**

During the reporting period, the Commission timely resolved 41 (32 ratesetting and 9 adjudicatory) proceedings subject to the evidentiary hearings.

### **Appendix D – Formal Proceedings Subject to Hearing, Active During the Reporting Period – Proceedings not Resolved on Schedule**

All formal proceedings subject to hearing resolved during the reporting period were timely. This is the third year, since the reporting period was initiated in 1998, that the Commission has achieved 100% compliance with the legislative deadlines for proceeding resolution.

### **Appendix E – Formal Proceedings Subject to Hearing, Currently Active and on Schedule**

Appendix E contains cases subject to hearing that are not yet resolved and currently still active. There are 194 such cases – 48 adjudicatory, 4 quasi-legislative and 142 ratesetting. All of these cases are currently on schedule.

### **Appendix F – Petitions for Rulemaking**

Petitions for Rulemaking are statutorily mandated type of proceeding not subject to the SB 960 guidelines in Pub. Util. Code Sections 1701.1 et al. The Commission is mandated to issue a decision in this type of proceeding within six months. Appendix F shows that six such proceedings were active during the reporting period, and that the Commission has issued timely final decisions in three of the proceedings. The remaining three proceedings are on schedule.

### **Appendix G – Commissioner Attendance**

Appendix G reports the Commissioner attendance at hearings during the period. The table shows that Commissioners attended 50 days of hearings and presided during 15 of those 50 days.

### **Appendix H – 60-90 Day Compliance**

The Legislature has also established guidelines for the length of time between the issuance of a proposed decision and the adoption of a final decision by the Commission, applicable to ratesetting and quasi-legislative proceedings requiring a hearing. The guidelines are either 60 or 90 days depending on certain circumstances.

During the period, the Commission considered 34 proposed decisions in proceedings subject to these guidelines. The Commission adopted 28 final decisions in such proceedings. In 22 instances, the final decision was adopted within the guidelines and in six instances, the final decision was issued later than the period specified in the guidelines. Four proposed decisions are currently on the Commission's agenda and two proposed decisions were withdrawn from consideration.

### **Appendix I – Issuance of Presiding Officer Decisions and Proposed Decisions**

For proceedings that require a hearing, the Legislature has also established guidelines for the length of time between the submission of a matter for decision and the issuance of the proposed decision. During the period, the Commission issued 5 presiding officer decisions and 28 proposed decisions in such proceedings. Out of these 33 decisions, 27 (82%) were issued within the mandatory 60-day and 90-day timelines. This reflects a 21% improvement from last year and we will continue to work for better results in this area.

## **Conclusion**

In summary, 595 proceedings were active at the Commission during the 2012 reporting period. All of the 283 proceedings resolved during 2012 were timely. This is the third time, since the reporting periods were initiated in 1998, that the Commission achieved 100% compliance with the deadlines for proceeding resolution. The Commission is committed to comply with the Legislative timelines.
