

**PSPS Data By Census Tract (Non-Spatial)**

Authority by Section K.3.a.ii, Appendix A of Decision 21-06-034

The [prior year] Post-Season Report must include, but will not be limited to, for each proactive de-energization event that occurred during the prior calendar year:

ii. Total number of customer accounts de-energized and median and maximum amount of time de-energized, total number of non-CARE/FERA customer accounts de-energized and median and maximum amount of time de-energized, total number of CARE/FERA customer accounts de-energized and median and maximum amount of time de-energized, total number of Medical Baseline customer accounts de-energized and median and maximum amount of time de-energized, and total number of customers who self-identified for advance notification (i.e., regardless of whether they are the account holder) that were de-energized and median and maximum amount of time de-energized, all by census tract.

Instructions:

- 1 Create a separate worksheet for each separate PSPS Event
- 2 Provide the minimum required fields listed in next section. Template is provided in next tab.
- 3 The current reporting data should cover all PSPS events from January 1 through December 31 of prior year.
- 4 Include the complete file in the comprehensive [prior year] Post-Season Report which is due no later than March 1 of each year.
- 5 Name file according to the following protocols:  
 syntax: <Utility Abbreviation>\_POSTSR2B\_<Submission Date>  
 examples: PGE\_POSTSR2B\_3-1-2022  
 PacifiCorp\_POSTSR2B\_3-1-2022
