Dear Director Bout:

Pacific Gas and Electric Company (PG&E) acknowledges the June 2025 audit of PG&E's Safety and Operational Metrics (SOMs) data collection and reporting process. The audit was conducted by Filsinger Energy Partners (FEP) on behalf of the California Public Utilities Commission.

PG&E appreciates FEP's audit and accepts the audit findings. PG&E has either (1) addressed the findings, or (2) has developed, implemented, or is currently implementing, corrective action plans to address the findings.

As applicable, PG&E will indicate in the semi-annual SOMs reports our progress against the findings or confirm that a finding has been addressed.

We look forward to our continued engagement with your office in relation to the SOMs.

Sincerely,
