Re: PG&E 2019 and 2020 Wildfire Mitigation Plan Update - Report

Dear Directors Thomas Jacobs and Palmer:

PG&E is providing this report on the progress we have made towards addressing the missed enhanced inspections of a small percentage of our assets subject to our Wildfire Mitigation Plan (WMP), described in our March 4, 2021 letter.

We have completed all enhanced inspections of Tier 3 substations and the last spans of the connected transmission and distribution lines and are on track to complete Tier 2 inspections by March 31, as we previously stated in the March 4 letter. We have also addressed all of the highest priority tags resulting from the Tier 3 inspections.

In addition, we have identified records showing we did perform WMP enhanced inspections in 2019 and 2020 on the 5 distribution poles cited in our March 4 letter. We had not validated that the inspections had occurred prior to submitting the letter, as site visits were necessary to confirm the records pertained to these 5 poles. As the locations of these poles are not easily assessible, we did not want to delay submission of the letter pending the site visits.

Caroline Thomas Jacobs, Leslie Palmer
